MotorPH Analytical Dashboard | Q3 2025 (Jun 01 – Aug 31, 2025)

Section 1: MotorPH Overview - high-level metrics for products and sales

Total Units Sold	Total Revenue	Number of Products	Product Categories	Transactions	Avg Revenue / Transaction
17,598	PHP 4.46B	50	17	993	PHP 4.49M
units, Jun–Aug 2025	PHP 4,458,070,900	models in the 2025 catalogue	largest: Scooter (12 models)	valid sales records	PHP 4,489,497

Key takeaways

1. Revenue is easing: Jun 2025 PHP 1,522M to Aug 2025 PHP 1,445M (-5.0%); units fell -7.2%.

2. Scooter leads revenue (PHP 747M, 16.8%) with 12 models, but earns only PHP 62.3M per model.

3. Heritage is the most efficient: PHP 276.6M per model from only 2 models.

4. Heritage is steady (rank 3–4 every month), so its strength is not a one-month spike.

5. Cruiser is slipping (PHP 245M to 167M, -32%) while Dual-Sport is rising (+89%).

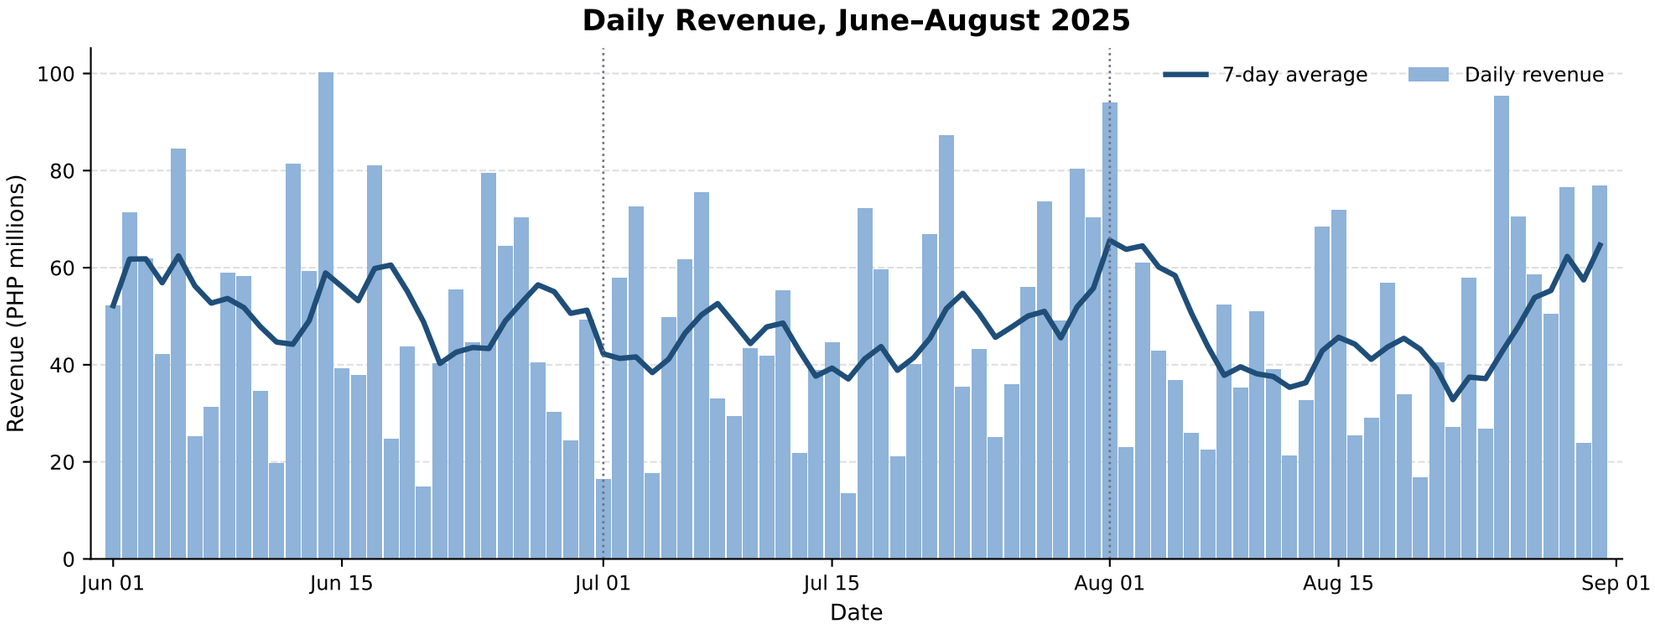

6. Top 3 categories hold 43.6% of revenue; 7 categories have a single model.

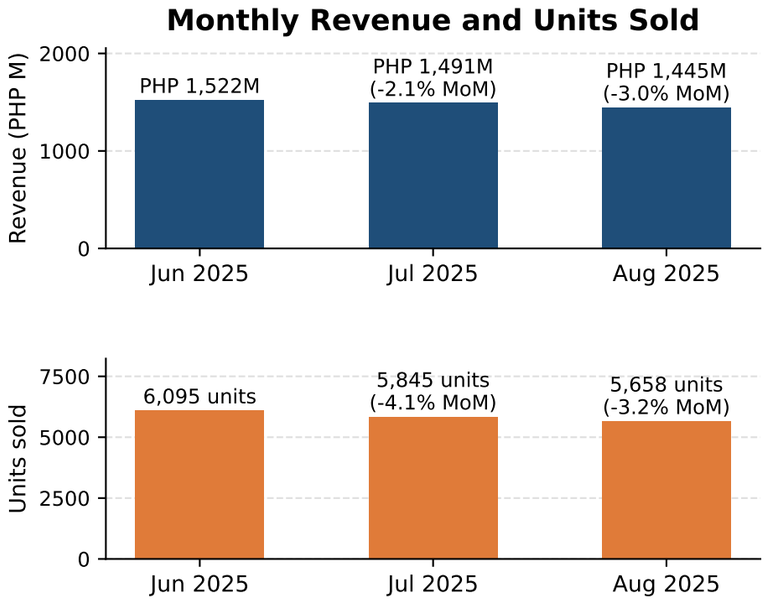

Data-quality review of the Sales data (14 of 14 checks pass)

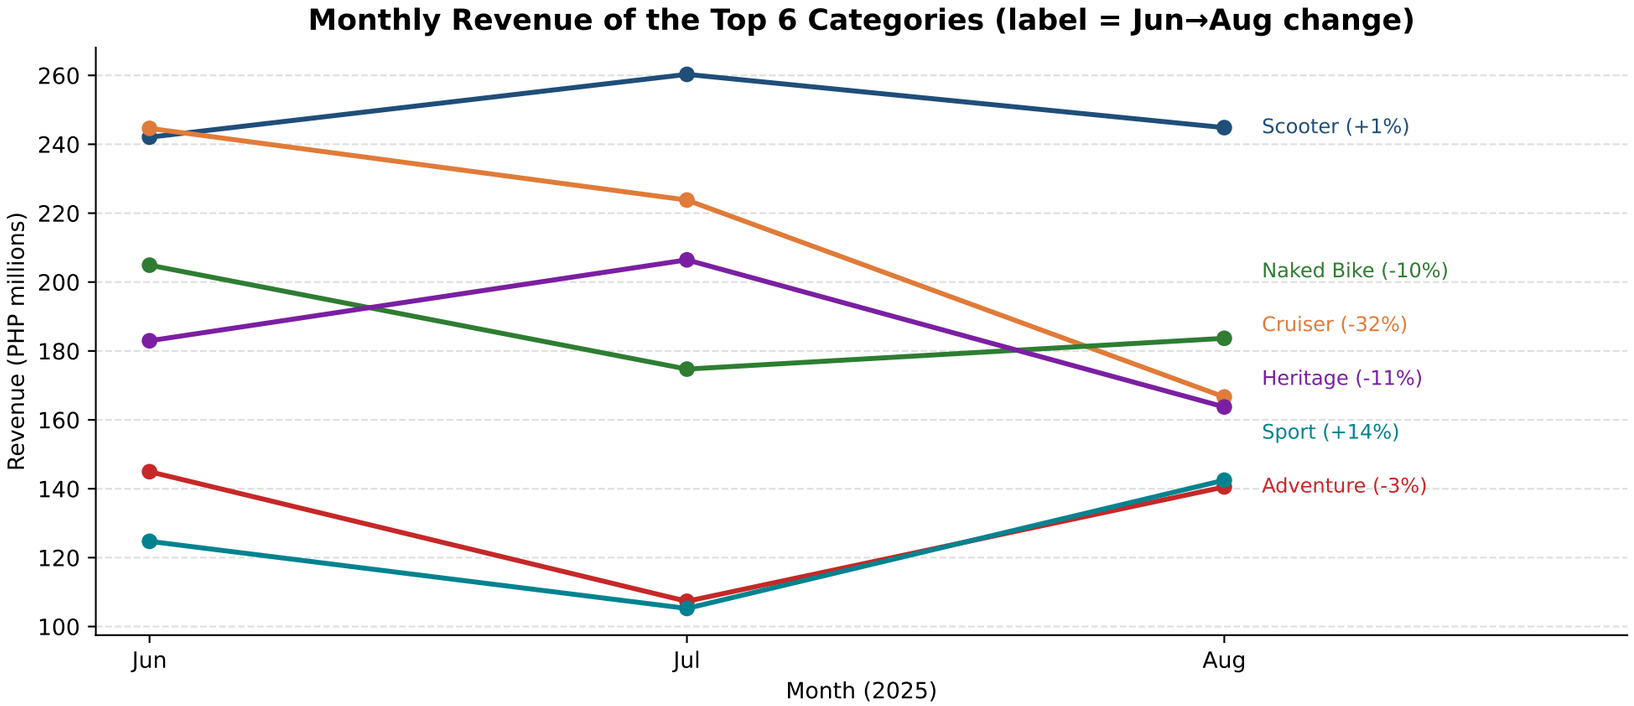

Check	Result	Detail
Missing values	PASS	0 blank cells across 9 columns
Duplicate records	PASS	0 duplicate rows (ignoring Transaction ID)
Unique Transaction ID	PASS	993 IDs for 993 rows
Data types	PASS	Date = datetime, Quantity = integer, prices/totals = float
Dates inside Q3 window	PASS	Jun 01, 2025 to Aug 31, 2025
No zero / negative values	PASS	0 non-positive prices, quantities or totals
Total = Unit Price x Quantity	PASS	largest difference PHP 0.00
Referential integrity (Sales -> Products)	PASS	0 sales rows point to unknown product IDs
Product names match catalogue	PASS	0 mismatches
Unit prices match catalogue	PASS	0 mismatches
Category labels clean	PASS	17 categories, no blanks or stray spaces
'Unknown' placeholders (kept)	PASS	20 rows (2.0%) = 1.5% of revenue; not charted
Quantity outliers (IQR rule)	PASS	0 above IQR fence; largest order 50 units - kept
Products with no Q3 sales	PASS	0 of 50 products unsold

MotorPH Analytical Dashboard | Q3 2025 (Jun 01 – Aug 31, 2025)

Section 2: Sales Performance - trends over time and comparisons

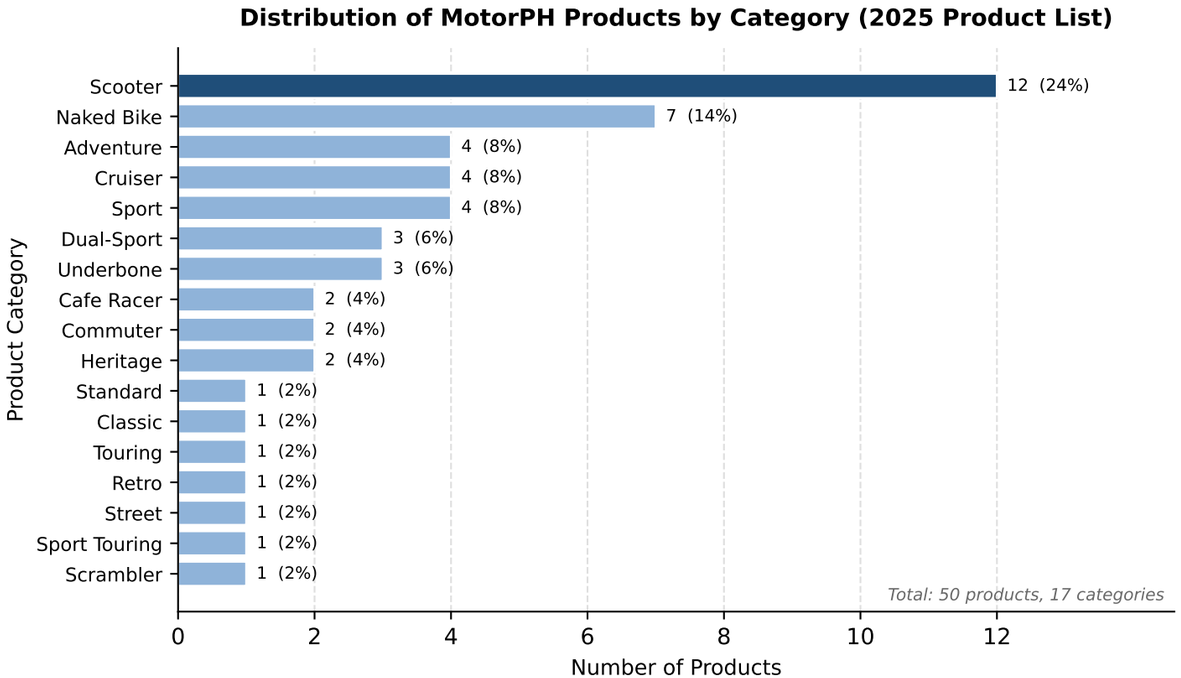

Category Revenue by Month: PHP M (rank)

	Jun	Jul	Aug
Scooter	242 (#2)	260 (#1)	245 (#1)
Cruiser	245 (#1)	224 (#2)	167 (#3)
Naked Bike	205 (#3)	175 (#4)	184 (#2)
Heritage	183 (#4)	206 (#3)	164 (#4)
Adventure	145 (#5)	107 (#5)	141 (#6)
Sport	125 (#6)	105 (#6)	142 (#5)
Dual-Sport	70 (#7)	103 (#7)	133 (#7)
Cafe Racer	61 (#8)	40 (#10)	68 (#8)
Touring	43 (#10)	71 (#8)	33 (#10)
Classic	45 (#9)	20 (#13)	50 (#9)
Underbone	23 (#14)	40 (#11)	27 (#12)
Scrambler	32 (#11)	46 (#9)	12 (#15)
Sport Touring	16 (#16)	37 (#12)	30 (#11)
Retro	31 (#12)	15 (#14)	19 (#14)
Commuter	18 (#15)	14 (#16)	20 (#13)
Street	26 (#13)	15 (#15)	7 (#16)
Standard	12 (#17)	11 (#17)	5 (#17)

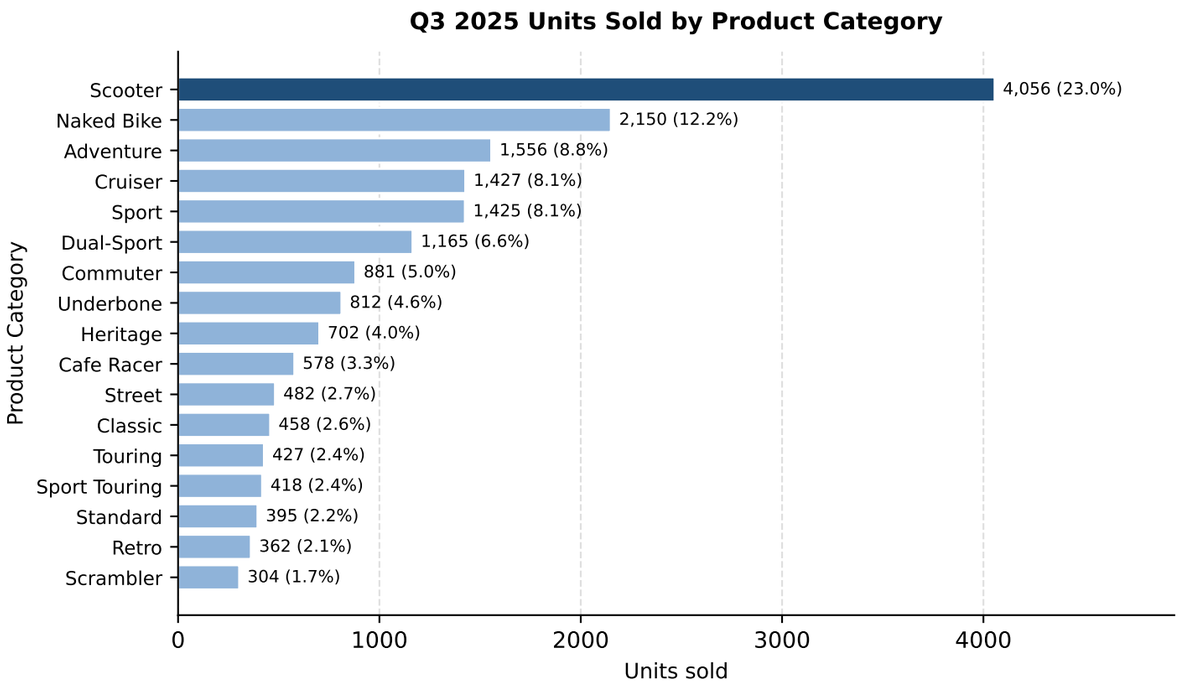

Shading = share of the category's own Q3 revenue (darker = concentrated in that month)

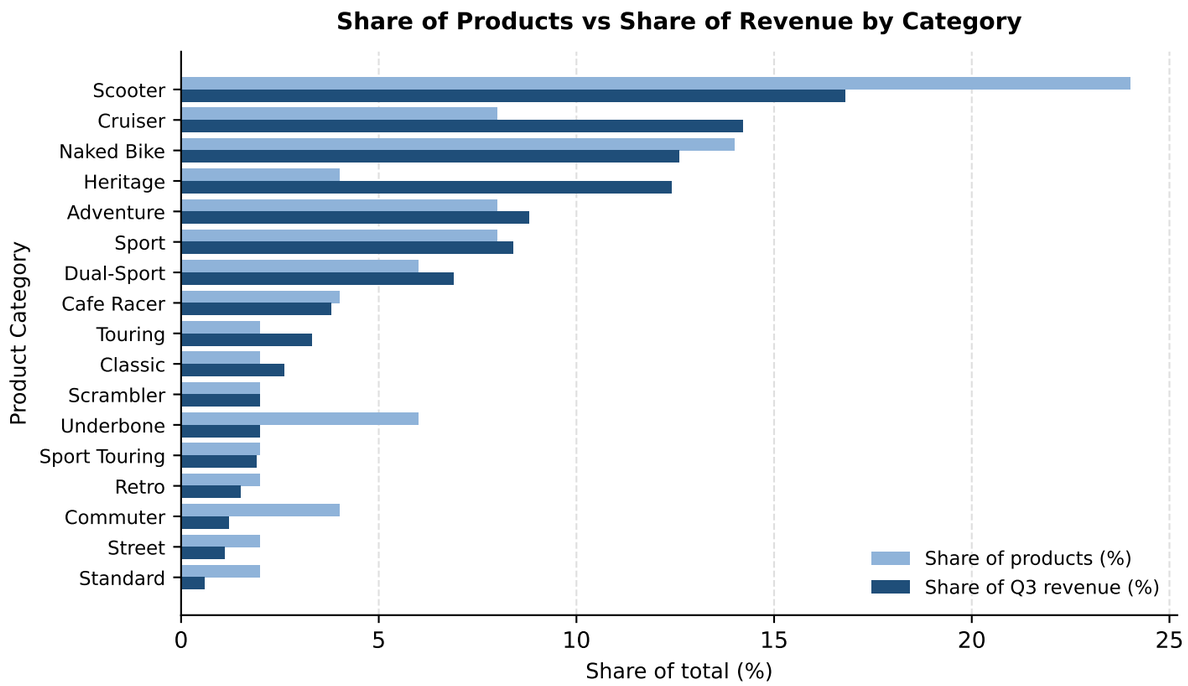

MotorPH Analytical Dashboard | Q3 2025 (Jun 01 – Aug 31, 2025)

Section 3: Sales by Product Category - includes the Milestone 2 draft chart

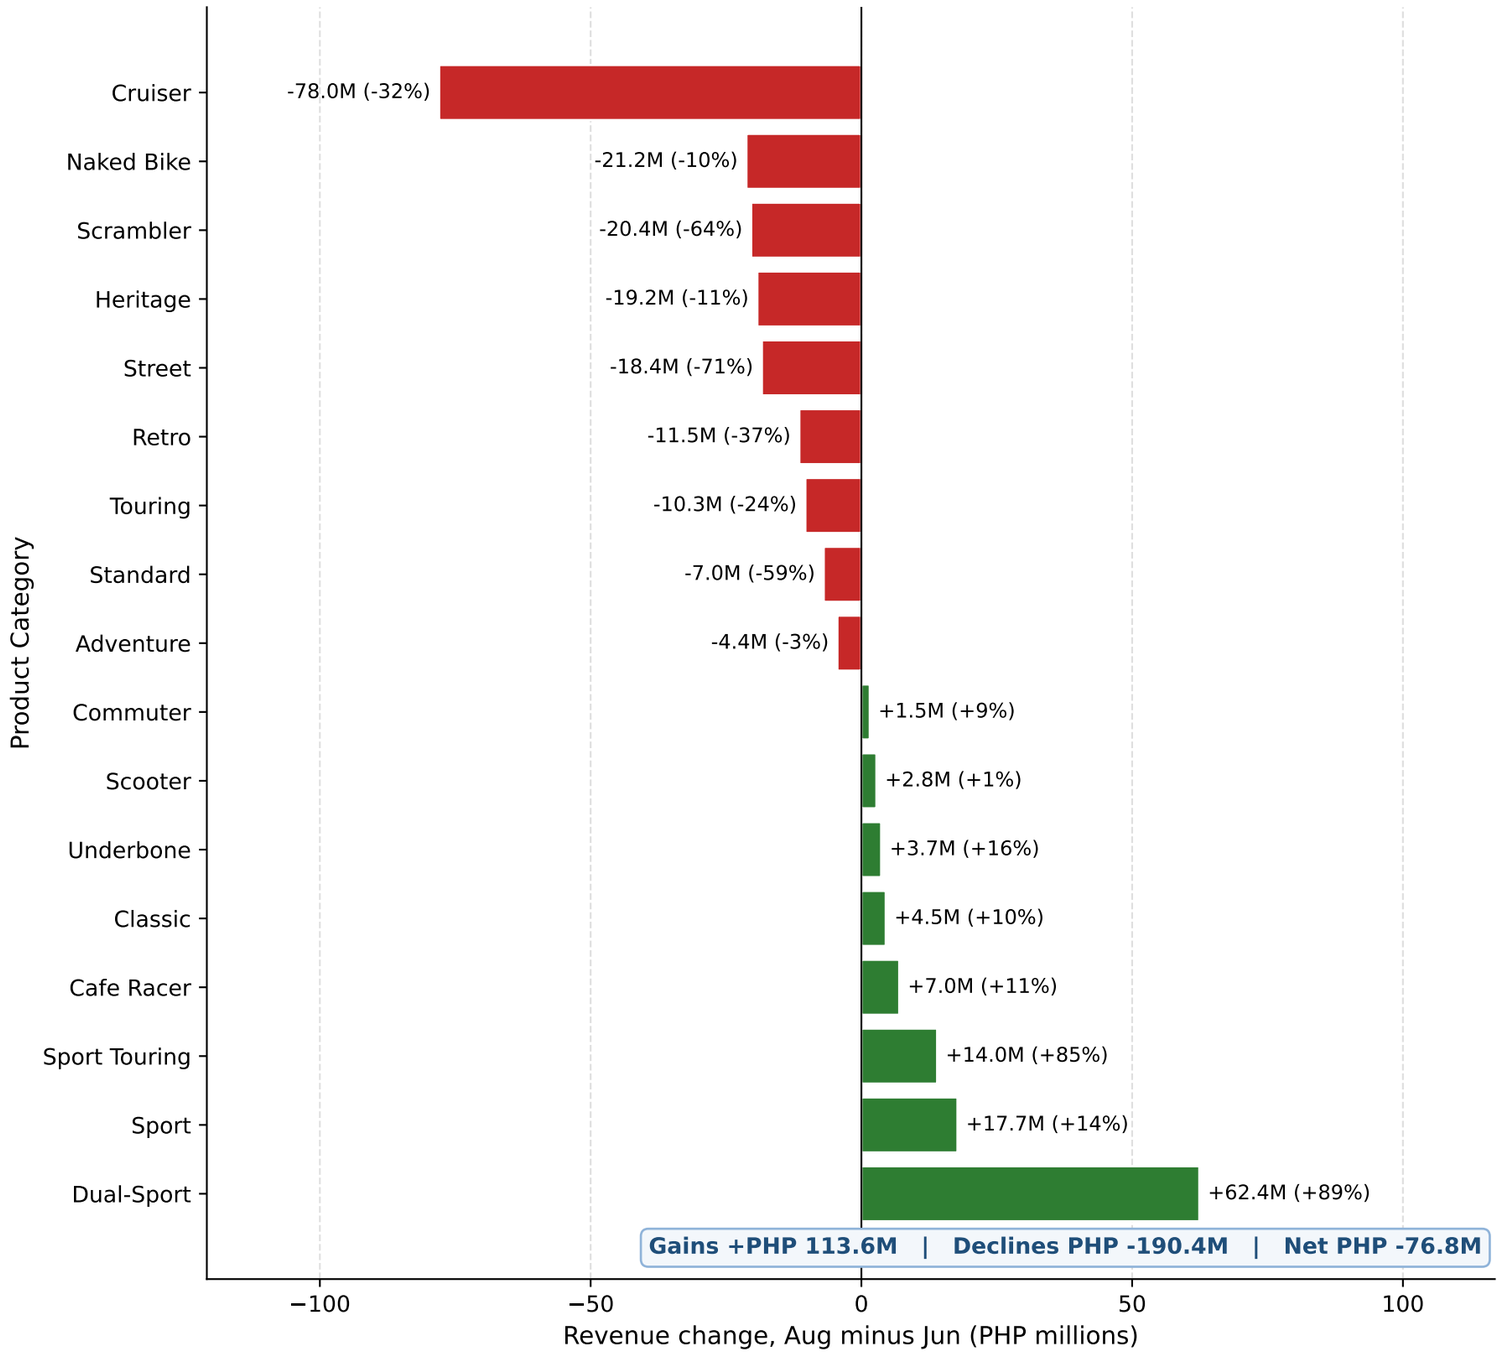

Source: MotorPH cleaned Products List 2025 and Q3 2025 Sales Data (Milestone 1) | MO-IT106 Milestone 2 | Revenue is not profit

MotorPH Analytical Dashboard | Q3 2025 (Jun 01 – Aug 31, 2025)

Section 4: Inventory - all 50 products by category (ordered by category revenue, then price)

ID	Product Name	Category	Unit Price (PHP)	Q3 Units Sold
39	Vespa GTS Super 300	Scooter	398,000	363
35	Yamaha XMAX 300	Scooter	319,000	225
45	Italjet Dragster 200	Scooter	289,000	391
34	Aprilia SR GT 200	Scooter	219,000	307
18	Vespa Primavera 150	Scooter	210,000	315
12	Honda ADV 160	Scooter	164,900	457
11	Yamaha NMAX 155	Scooter	151,900	270
31	SYM Jet X 150	Scooter	128,000	261
21	Yamaha Aerox 155	Scooter	124,000	383
26	Honda Click 125i	Scooter	80,900	293
47	Suzuki Burgman Street 125	Scooter	80,900	369
13	Suzuki Avenis 125	Scooter	79,900	422
42	Honda Rebel 1100	Cruiser	650,000	256
32	Harley-Davidson Street 750	Cruiser	499,000	212
22	Bristol Bobber 650	Cruiser	398,000	575
36	Benelli 502C	Cruiser	349,000	384
43	KTM 790 Duke	Naked Bike	599,000	363
20	Kawasaki Z400	Naked Bike	331,000	391
2	Yamaha MT-15	Naked Bike	178,000	315
8	KTM Duke 200	Naked Bike	178,000	137
6	CFMoto 300NK	Naked Bike	165,000	428
16	TVS Apache RTR 200 4V	Naked Bike	129,000	219
19	Suzuki GSX-S150	Naked Bike	125,000	297
41	BMW R nineT	Heritage	995,000	227
49	Moto Guzzi V7 Stone	Heritage	689,000	475
37	Moto Morini X-Cape 650	Adventure	369,000	297
15	BMW G 310 GS	Adventure	320,000	426
33	Zontes 310X	Adventure	248,000	480
24	Motorstar Xplorer 250R	Adventure	78,900	353
1	Honda CBR500R	Sport	389,000	369
3	Kawasaki Ninja 400	Sport	340,000	255
14	KTM RC 200	Sport	198,000	305
44	CFMoto 300SR	Sport	165,000	496
46	Yamaha Serow 250	Dual-Sport	299,000	496
29	Honda CRF300L	Dual-Sport	284,900	292
40	Kawasaki KLX 230	Dual-Sport	199,000	377
7	Bristol Veloce 500	Cafe Racer	328,000	230
48	Zontes GK350	Cafe Racer	269,000	348

28	Bajaj CT125	Commuter	67,900	488
30	Rusi Flash 125	Commuter	48,000	393
38	Yamaha FZi 150	Street	99,900	482
23	Keeway RKS 150 Sport	Standard	68,900	395

What Drove the June to August Change? Revenue Change by Category

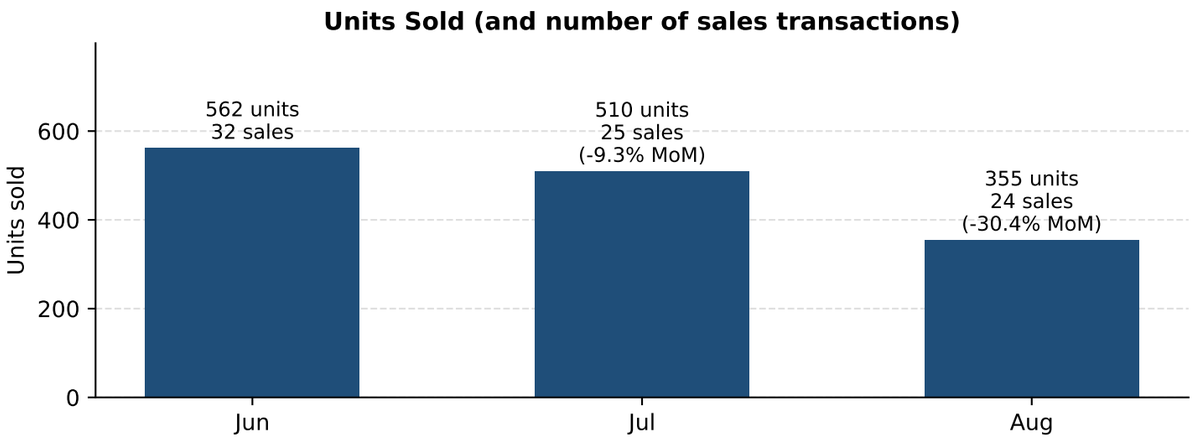

How to read this chart

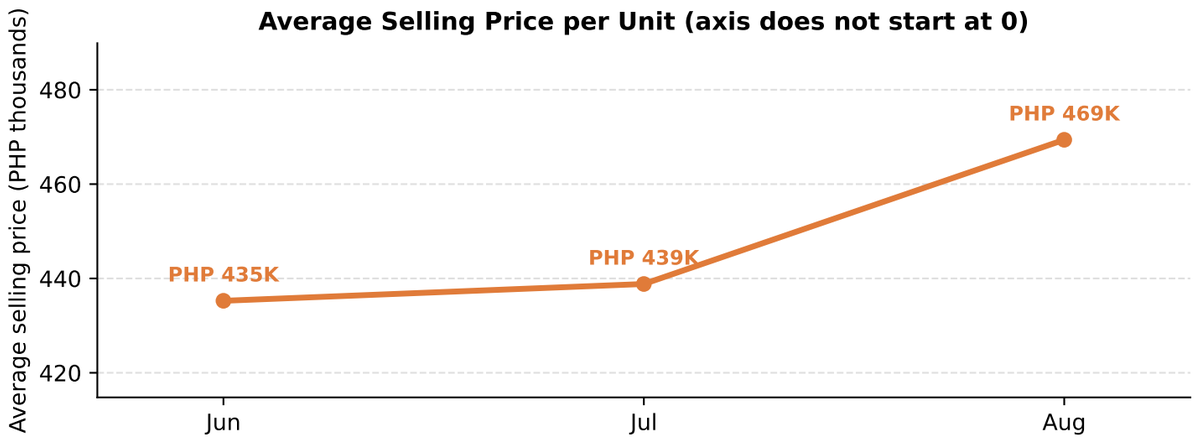

- Total revenue fell PHP 76.8M (Jun to Aug). That is the net of PHP 113.6M of gains and PHP 190.4M of declines.
- Cruiser alone accounts for 41% of all declines (PHP -78.0M). With Naked Bike, Scrambler, Heritage and Street, five categories explain 83% of the decline.
- Dual-Sport grew +89% and Sport Touring +85%, but these are small bases: Sport Touring added only PHP 14.0M (from PHP 16.4M). Only Dual-Sport (PHP 62.4M) was large enough to offset a meaningful part (55% of all gains).
- No contradiction: a high percentage growth on a small base adds little revenue, while a decline in a high-revenue category removes a lot. Read percentage labels together with the PHP amounts.
- Revenue and units both fell (-5.0% and -7.2%), and unit prices match the catalogue on every sale, so the decline reflects fewer units and a different model mix, not price changes.

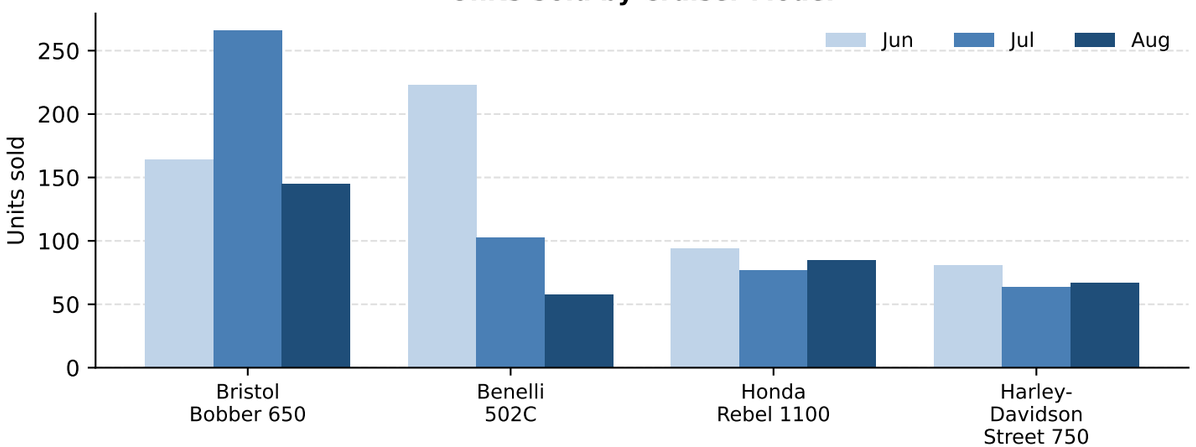

Source: MotorPH cleaned Products List 2025 and Q3 2025 Sales Data (Milestone 1) | MO-IT106 Milestone 2 | Revenue is not profit

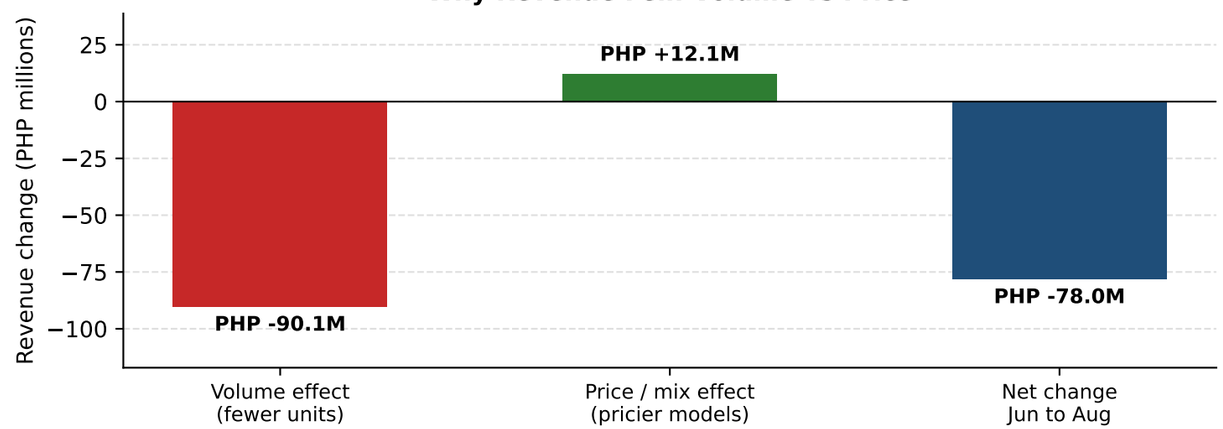

MotorPH Analytical Dashboard | Q3 2025 (Jun 01 – Aug 31, 2025)

Section 5: Drivers & Limits - Cruiser deep dive: why did revenue fall 32%?

Verified in the data

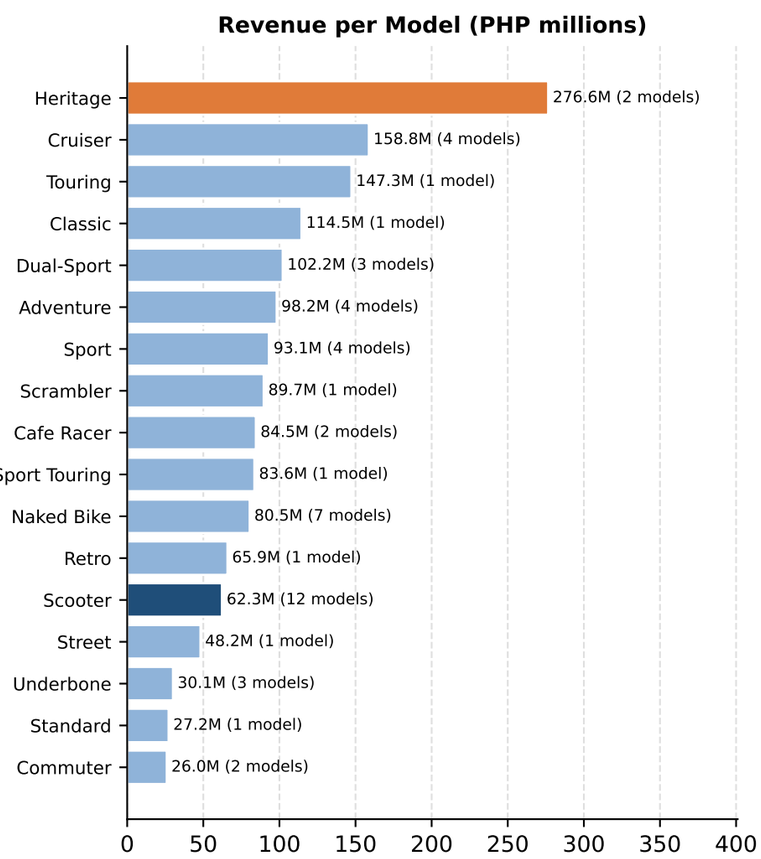

- Units fell -36.8% (562 to 355) and transactions fell from 32 to 24, while average selling price rose +7.8%. The drop is a volume drop.
- Benelli 502C accounts for 80% of the fewer units (223 in June to 58 in August); Bristol Bobber 650 peaked in July (266).

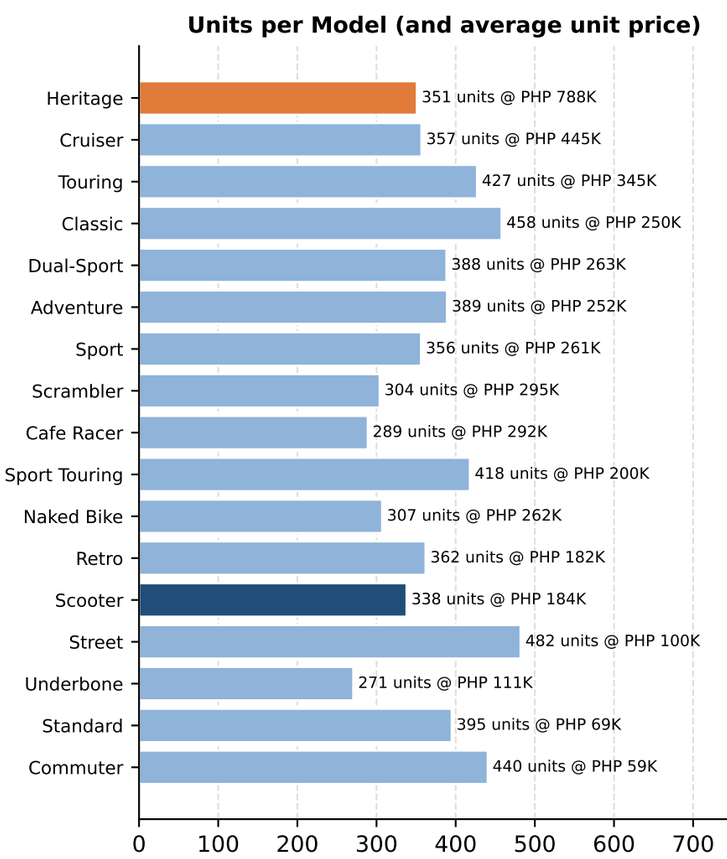

Not testable with these files

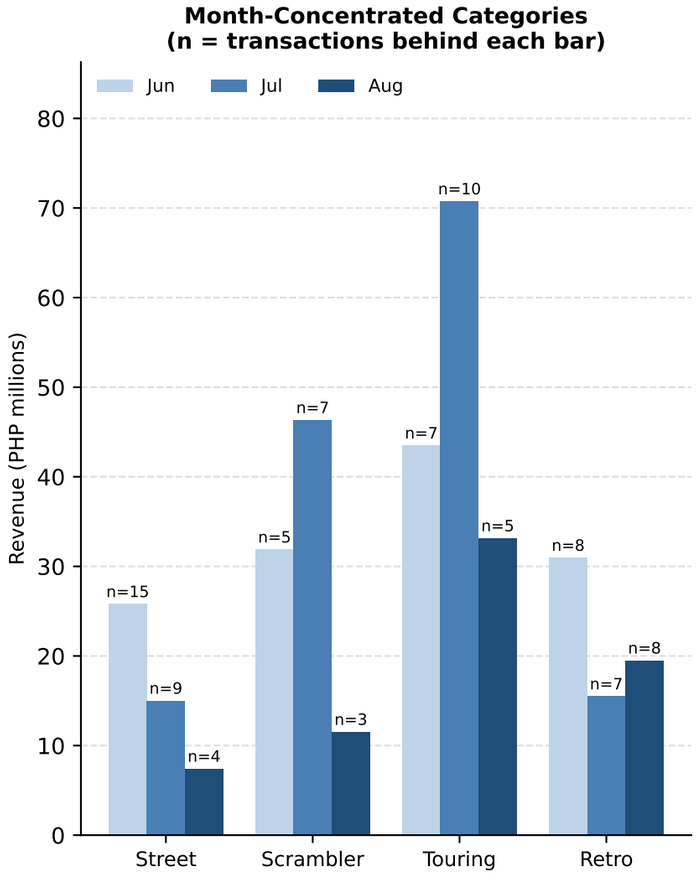

- Inventory availability: there is no stock or supply field, so the data cannot show whether lower sales came from weak demand or from stock-outs. Check stock records for the Benelli 502C.
- Reasons for the shift (promotions, competitors, customer preferences) are possible explanations only; none is supported by the datasets.

MotorPH Analytical Dashboard | Q3 2025 (Jun 01 – Aug 31, 2025)

Section 5: Drivers & Limits - efficiency vs volume, concentration risk, verified vs possible

Efficiency and concentration (verified)

- Heritage earns PHP 276.6M per model vs Scooter PHP 62.3M (4.4x), but sells a similar number of units per model (351 vs 338). The edge is price (PHP 788K vs 184K), not volume.
- Heritage depends on 2 models; Moto Guzzi V7 Stone alone is 59% of Heritage and 7.3% of all revenue. Scooter's top model is 19% of its category.

Verified vs possible explanations

- Verified: Street fell from 15 to 4 transactions (PHP 25.8M to 7.4M); Scrambler peaked in July on 7 transactions. Each is a single model with only 3-15 sales a month, so one order moves the month.
- Possible, not tested: seasonality, customer type, region, promotions or stock. The files have no demographic, geographic, promotion or inventory fields, so none of these can be claimed.

Recommendations

- Keep Heritage as the high-value category, but monitor reliance on two models. Optimise Scooter on volume per model and the weaker models, not on adding models.
- Street and Scrambler: track monthly units, transactions and stock rather than targeting a customer group. Collect customer, region, cost and stock data first.
- Profit margin cannot be compared: add a Unit Cost column to the product list and the margin view can be added.
